NUMISMATIC GALLERY

VOLUME II

NUMBER 2

SPRING 1983

KAGIN'S

Dear Friends:

It is with great pride and pleasure that we present Volume II, Number 2 of Kagin's Numismatic Gallery. Because of the great success of our Classic Gold Rarities catalog, where most coins listed were immediately sold, we are convinced the collecting public is looking for a fixed rare coin price list offering both accurately graded coins and fair prices. To that end this catalog has been prepared.

On the following pages you will find one of the finest offerings of United States rare coins available on today's numismatic market. In our attempt to satisfy the needs of both the collector and the investor, we have included numerous coins priced under \$100 as well as a selection priced over \$20,000. We have also assembled several special numismatic offerings, some of which are unique to this price list. Among the specials offered is the seldom seen \$5 Hawaii overprint note, a type selection of United States gold coins, and an invitation to join Kagin's Monthly Investment Program. Whether you are new to numismatics or are a seasoned professional, we are certain you will find a coin or note of interest.

Plans are already well under way for the next issue of Kagin's Numismatic Gallery. It is our intention to produce a quality, informative price list on a periodic basis. To that goal, we have provided space for you to inform us of your thoughts and comments concerning this issue. Only by knowing what you think will we be able to give you the type of price list you want. Room has also been provided for the names and addresses of fellow collectors who did not automatically receive this issue but who would like to receive a free copy of the next. We especially invite junior collectors to request a free copy because they are the future of our hobby and should be encouraged in every possible way.

Finally, I would personally like to point out one fact: a company is only as good as its people. I feel Kagin's has the best numismatic staff in the industry, not only in ability but also in dedication and attitude. The people at Kagin's care. When talking to a Kagin's employee, either in person or over the telephone, you are not only talking to a professional and fellow numismatist, you are also speaking to someone who realizes the customer is the backbone of the business. We have been buying and selling coins and currency for fifty years. You cannot stay in business that long by ignoring the customer. That is why through good economic times and bad, with your support Kagin's remains a numismatic leader.

Once again, let me welcome you to Kagin's Numismatic Gallery. Be it a silver dollar for \$75, currency for \$1,250, or a gold rarity for \$25,000, we have something just right for you.

Donald H. Kagin, Ph.D., President

UNITED STATES TYPE COINS

One of the most popular methods of collecting is by type. Instead of attempting to complete an entire series-Lincoln cents for example-the type collector acquires just one example of each coinage design or variety. By doing so, a varied and interesting collection can be assembled within a short period of time.

Kagin's is pleased to offer for your consideration a representative selection of United States coinage types in both Mint State and Proof. As with all coins sold by Kagin's, each has been selected for quality and eye appeal and carry a full thirty-day return privilege. In addition, all coins carry the Kagin's Lifetime Guarantee of Authenticity and Grading, a guarantee in writing that every coin will meet the official grades determined independently by the American Numismatic Association's Certification Service (ANACS).

LARGE CENTS

1837 **CHOICE MS-65**. Plain cord, medium letters variety. Medium brown in color. The central devices are sharp, but the periphery is a bit weak. On the obverse, the first three stars are flat. There is also a circular die break extending from the 7 o'clock position to the 1 o'clock position, connecting the third through seventh stars. There is also a small die break on the reverse connecting the letter F in OF with the first four letters of AMERICA. A very attractive type coin with virtually flawless surfaces..... 750.00

1837 **CHOICE MS-65**. Plain cord, medium letters variety. Lovely medium brown in color with traces of red. Strike a bit sharper than preceding coin. A small mark under Liberty's eye, otherwise surfaces are very appealing..... 750.00

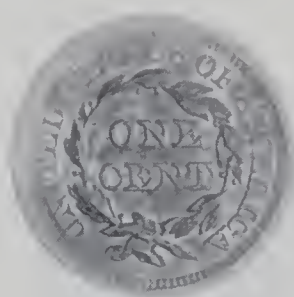

1849 N-18 **PROOF 63**. Virtually full original mint brilliance with few minute flyspecks visible under magnification. Reverse fading to light brown. Among the finest surviving proofs of this year.

Ex: Garrett Sale I 1975 Lot 195..... 9,750.00

1853 **CHOICE MS-65**. Lovely red and brown in color with full underlying cartwheel. A bit weak about the periphery, as are most of this date. The head of Liberty is well struck, though most of the stars show some weakness. Virtually flawless surfaces..... 1,400.00

1855 CHOICE MS-65. Upright 5's. A very attractive coin with virtually perfect red and brown surfaces. Well struck central devices, though some of the stars are a bit flat, as are some of the leaves on the wreath on the reverse. An attractive type coin that is priced very competitively.....950.00

INDIAN CENTS

1860 CHOICE MS-65. Very sharply struck with full diamonds and feather tips. Quite lustrous with just a hint of toning. An exciting example of this limited five-year issue Indian Head type cent.....760.00

1866 CHOICE MS-65. Attractive mottled red and brown toning. Very well struck with full diamonds and feather tips. An inexpensive example of an early Indian Head cent.....450.00

1870 SELECT PROOF 63. Full proof surfaces under gold and brown toning. Just 1,000 proof struck.....450.00

1879 CHOICE PROOF 65. Lovely iridescent toning with gold peripheral highlights. Though 3,200 Proof Indian Head cents were struck in 1879, most have since been circulated, mishandled, or cleaned. This particular example has to be one of the nicest survivors on today's market.....1,500.00

1879 CHOICE PROOF 65. A second choice example of this date. This cent is a full red in color, and though toned differently from the preceding coin, it is just as choice.....1,500.00

1880 SELECT MS-63. Well struck. Red and brown in color. Small carbon spot on the obverse rim at 3 o'clock.....90.00

1884 SELECT MS-63. Subdued red and brown in color. Quite attractive.....100.00

1889 CHOICE MS-65. Quite attractive, full red in color. Completely original and scarce so choice.....450.00

1891 SELECT MS-63. Attractive red and brown. Well struck.....100.00

1893 SELECT PROOF 63. Violet toning. Very small carbon spot on Liberty's neck. Another by the 9 in the date. A popular issue and grade with collectors. Just 2,195 struck.....250.00

1896 SELECT MS-63. Completely original mint red.....100.00

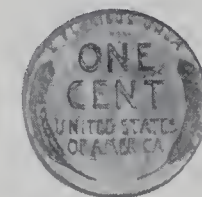

1909 CHOICE PROOF 65. Last year of issue for the popular Indian Head cent design. Full red in color. A very attractive coin that still has all its "flash.".....1,500.00

LINCOLN CENTS

1909 VDB, CHOICE MS-65. Full mint luster with just a hint of red. From an original roll. An only year of issue that is popular with collectors.....60.00

1909-S VDB MS-65. Lovely iridescent toning with highlights of gold and red. Well struck.....850.00

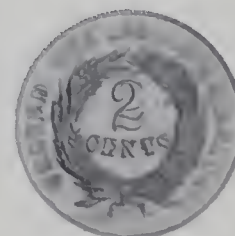

1910-S CHOICE MS-65. Full red in color. Very sharply struck. A popular early branch mint Lincoln cent.....350.00

1932 CHOICE MS-65. Brilliant.....65.00

1933-D CHOICE MS-65. Full red. From an original roll.....75.00

TWO CENT PIECES

1865 CHOICE MS-65. Red and brown in color. Well struck. Attractively priced for the type set collector.....950.00

1867 BRILLIANT PROOF 67. Brilliant golden surfaces. Sharply struck example of this short-lived denomination. Unusually desirable example.....2,750.00

1868 CHOICE MS-65. Lovely red and brown toning. An important opportunity for the collector because, even though priced near the level of an 1864 or 1865, the 1868 2¢ piece is decidedly rarer.....950.00

1870 SELECT MS-63. Red and brown in color. A better than common date at a common date price.....500.00

NICKEL THREE CENT PIECES

1865 SELECT MS-63. Brilliant luster with the usually encountered clashed dies.....350.00

1887 CHOICE MS-65. Scarce, low mintage business strike; 5,001 struck. These business issues are often confused with the more readily available proof issues of this date. However, this coin is definitely a business issue, as there is no evidence of a proof surface on the obverse, while the reverse at best would be described as semi-prooflike. This coin undoubtedly is one of the more attractive of the surviving examples of this low mintage date. Its surfaces are spot free, and it still possesses its full mint luster. A must for the serious investor.....1,500.00

1872 BRILLIANT MS-60. Absolutely no trace of wear, however this lacks the "sparkle" of a higher grade.....125.00

SILVER THREE CENT PIECES

1851-O GEM BRILLIANT UNCIRCULATED MS-65. Magnificent example of only the branch mint silver trime. Light even gold toning on this sharply struck specimen. A must for any serious collector.....4,750.00

1852 SELECT MS-63. Second year of issue for this three-year variety. Very light overall toning, with scattered areas of darker toning about the obverse periphery. Also, some peripheral weakness as usually encountered for this issue. Still, a desirable coin with good underlying luster.....550.00

HALF DIMES

1832 GEM UNCIRCULATED MS-69. Well struck with full detail of stars and bust. No contact marks on either side, natural violet and gold toning. Second lowest mintage for type. The ultimate for determined collector.....12,500.00

1841-O MS-69. Outstanding branch mint silver piece with full prooflike surfaces. Unusually attractive GEM tiny silver coin. This could be the finest known.....7,000.00

1858-O MS-63. A popular branch mint issue. This coin is very well struck and completely original, unlike so many coins of this era that are commonly encountered. The obverse is toned a greenish-gold in the center with brilliance about the stars. The reverse toning is similar but is confined primarily to scattered areas in the fields. A premium example of this issue.....1,750.00

SHIELD NICKELS

1877 PROOF 65. Outstanding proof strike of elusive proof-only year with 510 pieces struck. Bright proof surface fields with slightly darker reliefs for an unusually attractive impact.....4,000.00

1883 CHOICE BRILLIANT PROOF 65. Connoisseur-class choice with lightest natural toning. Unusually attractive for specialist and type collector.....1,925.00

LIBERTY HEAD NICKELS

1883 No CENTS, CHOICE MS-65. First year of issue and the only year the word CENTS did not appear on the reverse. Lightly toned and with full luster.....375.00

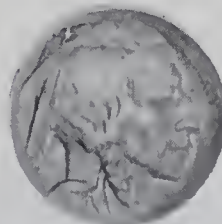

1901 CHOICE MS-65. A very attractive coin that shows just a hint of toning.....950.00

1905 CHOICE MS-65. A very pleasing coin, light golden in color...950.00

1911 CHOICE MS-65. Full luster under light toning. Better than average strike.....950.00

BUFFALO NICKELS

1913-D CHOICE MS-65. Type 1. The first and only year of issue of this type. Attractive strike with light golden toning.....285.00

1919 CHOICE MS-65. Sharply struck. Subdued toning on the obverse, brilliant reverse. An interesting and attractive example of this date.....250.00

1924-D SELECT MS-63. Typical strike for the issue. Lustrous.....345.00

1924-S SELECT MS-63. A key to the Buffalo nickel series. Uneven medium golden toning on both the obverse and reverse.....900.00

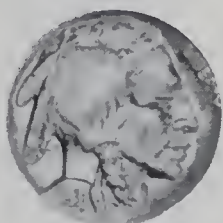

1925 SELECT MS-63. Typical soft strike. Quite lustrous, with just a hint of light golden toning.....75.00

1928 SELECT MS-63. Lustrous and with good eye appeal. A few scattered light flecks in front of the Indian's face are all that keep this coin from a higher grade.....75.00

1929 SELECT MS-63. Quite lustrous, with just a trace of light toning.....70.00

1929 SELECT MS-63. Similar to the preceding lot, but with a more even light toning.....70.00

1930-S SELECT MS-63. Well struck for the issue, especially on the reverse. Attractive and lustrous.....75.00

1931-S GEM MS-67. Lustrous. An attractive example of this date, which happens to have the second lowest non-proof mintage figure in the entire Buffalo nickel series.....300.00

1931-S SELECT MS-63. Lustrous, with even golden toning.....85.00

1934-D SELECT MS-63. Scattered golden toning. Excellent underlying luster.....70.00

1935-D SELECT MS-63. Medium toning. Somewhat softly struck on the reverse.....70.00

1937-D CHOICE MS-65. We have a small selection of 7 pieces hand-picked from an original roll. All are fully lustrous, with some having light toning..... Each 40.00

1862 BRILLIANT PROOF 65. Virtually flawless two-tone yellow gold proof with deeply frosted reliefs and mirror fields. Among the finest of 35 proofs struck with an estimated dozen in existence today. This is perhaps the Garrett specimen.....22,500.00

1868 BRILLIANT PROOF 67. Glittering two-tone specimen. This beauty is free of blemishes and is possibly the John Work Garrett specimen.....27,500.00

1871 BRILLIANT PROOF 65. Deep yellow gold, pristine example of 30 proofs struck. Perhaps 2 known in this high grade today; the other being the John Work Garrett specimen that had a nick.....24,000.00

1873 Closed 3, PROOF 55. One of only 25 proofs for year. Although there is evidence of some hairlines in fields, this is still an attractive specimen.
EX: R.L. Miles Jr. 1968; Dr. E. Yale Clarke 1975.....10,000.00

1874 CHOICE AU-55. Much original luster in protected areas. Green-gold to deep orange color on very clean surfaces.....2,400.00

1874 CHOICE PROOF 65. Virtually flawless specimen. One of 20 proofs with reverse die featuring date slightly offset to left, 4 of 1874 below center of A in DOLLARS. David Akers traces 13 proof 1874 \$3 at auction, noting that some were really prooflike business strikes with 4 below right foot of A. Among the rarest proofs, not fully appreciated by collectors in the 19th and early 20th centuries, perhaps only 10 or 12 are still in existence.
EX: Ely collection; W. Elliott Woodward 1883; Garrett Sale I 1979 Lot 425 35,000.00

1877 CHOICE PROOF 65. Another stellar proof. One of only 20 originally struck, with perhaps 10-12 surviving. Akers traces 27 appearing at auction, with a few prooflike business strikes and repeats padding this number. Brilliant, with faint graininess of obverse field caused by metal flow on striking into wreath on reverse.
EX: Garrett Sale I 1979 Lot 427.....30,000.00

1878 MS-60. Brilliant, with a few light hairlines. An inexpensive example of this popular type coin.....3,200.00

1879 BRILLIANT PROOF 65. Near perfect fields. Only 30 proofs and 3,000 business strikes made. This proof was a great collectible long before real appreciation of proofs per se in modern times. Walter Breen estimates only 15 to 18 survive today.
EX: U.S. Mint 1879; Garrett Sale I 1979 Lot 428.....24,000.00

1881 BRILLIANT PROOF 65. A gem quality two-tone proof. 54 proof pieces struck with a total mintage of only 554! Possibly finest known for this third lowest mintage of entire denomination..... 32,000.00

\$5 GOLD

1797/5 Heraldic Eagle, EF-40. Light yellow gold with lustrous surfaces, minor hairlines and a few contact marks. Well struck, characteristic softness in Liberty's hair at ear, eagle's breast. One soft star top left, overdate dramatically bold. A major rarity of early gold seen at auction only 3 times since 1970.
EX: Baldenhofer Collection 1955.....25,000.00

1799 EF-40/45. Deep rich golden color with a strong strike. As a result, this piece is a fine, attractive example of a scarce early half eagle.
EX: Joseph J. Mickley; William Sumner Appleton; W. Elliott Woodward, 1883; Garrett Sale I 1979 Lot 441.....8,750.00

1803/2 CHOICE EXTREMELY FINE 45. Popular bust right, heraldic eagle type coin (1795-1807). Possibly lightly cleaned long ago, now toning to an attractive orange-gold color. Usual prooflike surfaces, with very light adjustment marks along the reverse rim in the fourth quadrant. Well struck for the issue, with claims to a higher grade. All in all, a very attractive and perfectly acceptable example of this early gold issue. This opportunity to acquire such a desirable type coin should not be easily dismissed by the collector or investor because it may be quite a while before such a chance once again presents itself.....5,750.00

1803/2 EF-45. A deep yellow gold color. Minute rim nick with some weakness of strike on shield. Overall, a very attractive specimen....
.....5,750.00

1803/2 Breen 1-D, EF-40. Green-gold toned piece with a bold overdate. All breast feathers on eagle struck up. Some usual reverse adjustment marks on shield and left foot. Overall, very sharp in details.....3,750.00

1805 CHOICE ABOUT UNCIRCULATED 50. Well struck with substantial original mint luster and details well defined. Only the barest trace of friction. Rare so choice.

Near perfect detail, full radial lines on stars. Each hair and feather distinct. Claws and denticles clear with tiniest hairlines and abrasions only. Runner-up as finest of 12-15 known. Museum quality equal to the Eliasberg specimen.
EX: Wolfson, Baldenhofer, DuPont.....67,500.00

1832 Square Base 2, 13 Stars, SELECT MS-63/65. Well struck. Gold and copper toning, one star only without full radial lines, some softness on Liberty's curls and eagle's right wing. Almost complete prooflike fields with faintest planchet lines, very minor rim bruise at 6th star. One of most desirable of the possibly 25 or so known specimens. Of great rarity.
EX: Winner Delp; R.L. Miles Jr.....42,500.00

1877 CHOICE BRILLIANT PROOF 65. Glittering sharp proof specimen of a total issue of only 20. Walter Breen could trace no auction appearances. Recent enough for input into his 1978 survey; researcher David Akers speculates that fewer than 10 proofs survive. This issue long associated with particular enthusiasm for all 1877 proofs.

EX: Garrett Sale I 1979 Lot 488.....32,500.00

1891 CHOICE BRILLIANT PROOF 65. Brilliant coin with some suggestion of two-tone on reliefs. Choice example of possible two dozen survivors of the original striking of 53 proofs.

EX: Garrett Sale I 1979 Lot 491.....17,500.00

1903-S SELECT MS-63. Quite lustrous, and very well struck.....675.00

1907 CHOICE BRILLIANT PROOF 65. Attractively toned example of this late Liberty gold. Only 92 struck in proof; probably 40-45 saw distribution to collectors. David Akers considers the 1907 proof Liberty to be the least frequently seen date of all 20th century half eagles.

EX: Garrett Sale I 1979 Lot 495.....17,500.00

RARE HAWAII OVERPRINT NOTE

During the dark days of World War II, the United States government saw the possibility of the Hawaiian Islands being captured by the enemy. Realizing the chance of this, the United States introduced specially printed emergency currency in denominations of \$1, \$5, \$10, and \$20, exclusively for use in Hawaii.

These notes were unlike any printed by this country. They had brown seals and serial numbers with the word HAWAII in bold type at both ends of the face of the note and across the back in large, thin letters. With these features, these notes were easily recognized and could be declared worthless in the event Hawaii fell, thereby precluding their use on the mainland by "enemy agents." Fortunately, Hawaii never fell and these notes continued in circulation until they wore out through normal use and were destroyed. Today, aside from an occasional circulated example or the sometimes encountered uncirculated \$1 note, Hawaiian overprints are rarely seen. Indeed, many collectors do not even know these notes exist!

At a recent coin convention, our rare currency buyer was presented with a great opportunity — he was offered an original pack of one hundred crisp uncirculated \$5 Hawaiian overprint notes! A purchase price was quickly agreed upon and we are now offering these scarce notes individually, on a first-come, first-served basis.

Many numismatic experts believe small size United States currency is vastly underpriced. This may be especially true of notes that are already very difficult to locate, like the \$5 Hawaii overprints we are now making available. Already seldom seen or offered, just imagine what would happen if demand for this note suddenly outstrips supply! Thousands of collectors could be left empty-handed! Don't let this happen to you.

We only have one hundred crisp uncirculated \$5 Hawaii overprint notes available — a very small number considering the thousands of collectors who will receive this price list. Once they are sold, it may be years before we are in the position to once again make a similar offer. That is why we suggest if you have any desire whatsoever to acquire an example of this seldom seen note, *place your order today!* If the numismatic experts are correct, you may be very glad you did!

WALKING LIBERTY HALF DOLLARS

The Walking Liberty half dollar is a coin of outstanding beauty and is one of this country's most widely collected coins. But because of the cost of assembling a complete mint set (1916-1947), most collectors concentrate on acquiring the "short set" issues of 1941 through 1947. Recognizing this, Kagin's has managed to assemble a small grouping of Choice MS-65 Walking Liberty half dollars belonging to the short set. These coins are well struck and lustrous. If you are a Walking Liberty collector, or are looking for a new and exciting area to collect, we heartily suggest you examine the following list!

AMERICA'S MOST BEAUTIFUL COIN

Most collectors and non-collectors alike, consider the Saint Gaudens Twenty Dollar gold piece (Double Eagle) to be this nation's most beautiful coin. Struck for circulation from 1907 through 1933, it represents the height of American coinage art.

In addition to its exquisite beauty, collectors and investors are attracted to this coin because of its size, 34 mm in diameter, and its heavy gold content of .9675 ounces. Surprisingly, despite this strong demand, the Saint Gaudens Double Eagle remains relatively inexpensive and can fit into almost any coin buyer's budget. No matter what your collecting interests are, every collector deserves some gold — and what better way than with this country's most beautiful coin?

We currently have in inventory several Select MS-63 examples. All have been chosen for their luster and eye appeal and are guaranteed to please even the most critical of collectors. Priced at just \$950 each, they are certain to sell quickly. Place your order today to be certain of receiving your example of America's most beautiful coin — the Saint Gaudens Twenty Dollar gold piece!
